# Background

Statements of Priorities are formal funding and monitoring agreements between Victorian public hospitals and the Secretary for Health and Human Services. Agreements are in accordance with section 26 of the Health Services Act 1988.

Statements of Priorities are consistent with the health services' strategic plans and aligned to government policy directions and priorities. The annual agreements support the delivery of or substantial progress towards the key shared objectives of quality and safety, good governance and leadership, access and timeliness, and financial sustainability.

A Statement of Priorities consists of four parts:

- Part A provides an overview of the service profile, strategic priorities and deliverables the health service will achieve in the year ahead.
- Part B lists the performance priorities and agreed targets.
- Part C lists funding and associated activity.
- Part D forms the service agreement between each health service and the state of Victoria for the purposes of the National Health Reform Agreement.

Performance expectations and mechanisms used by the Department of Health and Human Services to monitor and manage performance are described in the *Victorian Health Service Performance Framework* and the *Victorian Health Agency Monitoring and Intervention*.

High standards of governance, transparency and accountability are essential. In this context, the Victorian Government commits to publish Statements of Priorities by 1 November each year and place more data about the performance of our health system into the public domain.

# Policy directions and priorities

The Victorian Government is committed to treating more patients sooner, support ongoing efforts to improve the overall health and wellbeing of Victorians by investing in the Victorian health system, and to work with Victoria's doctors, nurses, paramedics and others across the sector to increase capacity and improve access to high quality care for all Victorians. The Victorian Government continues to invest in hospital capacity to support current and future demand across the state. Government will work with all health, mental health and ambulance services to ensure all Victorians, no matter where they live or their socioeconomic status, are able to access the care they need. High-quality person-centred healthcare will be provided by a diverse and adaptable workforce with the right mix of skills to meet the needs and expectations of consumers.

To support a healthy population and sustainable health system, the Government is committed to an increased focus on prevention, community and primary health services, care in the home and health promotion.

Whether it's through building new facilities, providing extra funding and resources, or promoting better health outcomes in the community; the Victorian Government is committed to securing a stronger and more reliable health system for all Victorians.

The Better Care Victoria Innovation Fund will provide funding for sector-led innovation projects and support the development of innovation capability across the state. In 2016–17 the Better Care Victoria Innovation Fund will have \$10 million to invest across Victoria. Funded projects will be required to demonstrate a strong ability to significantly improve timely and appropriate access to high-quality care for Victorians. Initially this investment will be across five focus areas: chronic complex medical patients; outpatients; care outside the hospital walls; variance in practice in delivering defined areas of care; and the 24-hour health system.

## Government commitments

### Improving health services

- Funding to enable health services to respond to growing patient demand across Victoria (\$978.4 million). Targeted services include emergency department presentations, intensive care, maternity admissions, specialist clinics, palliative care, chemotherapy, radiotherapy and subacute care.
- Additional elective surgery activity to meet existing demand and significantly reduce waiting times (\$335 million).
- The *2016–17 Victorian Budget* invests an additional \$356 million in mental health and drug treatment funding, which will help deliver the Government's 10-year Mental Health Plan.
- Additional mental health and drug funding will increase support for Victorians with a mental illness and their families, including supporting young Victorians and responding to vulnerable children, families and trauma.
- Additional funding will assist in managing critical demand in the mental health system and ensuring people with a mental illness receive the specialist intensive care they need (\$132 million).
- Strengthening oversight of quality and safety across Victorian health services (\$16.8 million).

- Provide certainty and direction on system health design, configuration and distribution services by developing a Statewide Design, Service and Infrastructure Plan for Victoria's health system, including a series of new design, service and infrastructure plans for each of Victoria's major service streams, including cardiac, maternity and newborn, clinical mental health, surgical, cancer, and genetics services.
- Implement Victoria's 10-year mental health plan to improve the mental health and wellbeing of Victorians. Through the plan, Victorians will: have genuine choice about options and services available; be supported through services that build optimism and hope; have universal access to high-quality, integrated public services; and access to specialist mental health services where and when needed the most.
- Report on the implementation of Victoria's 10-year mental health plan through an annual report to Parliament.
- Strengthen mental health support for marginalised Victorians including development of targeted support for Victorians with a mental illness, focusing on disadvantaged people with moderate severity mental illness, including Aboriginal, transgender and gender diverse people (\$9.9 million).
- Strengthen maternity care through the expansion of training for smaller, generally rural, services that otherwise have limited access to specialist training.
- Strengthened incident reporting mechanisms to improve hospital data timeliness and reliability, and ensure early identification of quality and safety issues.

## **Capital investments**

- Goulburn Valley Health's Shepparton campus will be redeveloped, including a new four-storey tower delivering theatres and new wards, refurbishment of the existing theatres, expansion of the Emergency Department including the addition of treatment bays and a new short stay unit, expansion of medical imaging, and the refurbishment of the maternity ward including a new Special Care Nursery (\$169 million).
- Urgent works will be completed at Footscray Hospital to improve infrastructure and engineering services while planning is undertaken for the future redevelopment of Footscray Hospital (\$61.3 million).
- Infrastructure will be upgraded across the Austin Hospital campus in Heidelberg to improve service reliability and minimise risks to patients and staff (\$40.8 million).
- Works at the Broadmeadows Surgery Centre will be undertaken to expand surgery capacity at Northern Health by providing two additional operating theatres, expanding the Central Sterile Services Department and enhancing patient reception and recovery facilities (\$17.3 million).
- Work will also begin on Australia's first specialist stand-alone heart hospital at Monash University in Clayton (\$135 million).
- A new purpose built mental health unit will be co-located and integrated with the new Monash Children's Hospital in Clayton. The new facility will deliver specialist assessment and treatment mental health services for children and adults up to 25 years of age including inpatient beds, community treatment and intensive and specialist care (\$14.6 million).
- The Victorian Government will rebuild Orygen Youth Mental Health, a major clinical and research facility for young people across Victoria with serious mental illness. This will house both Orygen Youth Mental Health Services' Clinical Program, and Orygen, the National Centre of Excellence in Youth Mental Health, combining clinical, education and training, and research services (\$59.0 million).
- A 12-bedroom facility for women, capable of also accommodating up to three young dependent children, will increase the range and number of services available to people with a mental illness and their families. This will ensure that women with an acute mental illness in the north and west of Melbourne, and their dependents, have access to a flexible, safe and appropriate facility for short stay periods (\$8.4 million).

## **Health workforce**

- Working with health services in 2016–17 to address the issues of inappropriate workplace behaviours, including bullying and harassment and create a culture and environment that supports both staff and patient safety in healthcare settings.
- Initiatives across occupational violence, bullying and harassment and worker health and wellbeing are aimed at ensuring health services are safe, respectful and healthy places to work.
- Training for up to 9,700 health and human services workers who may have contact with people who are affected by ice. Training and support will be tailored to address the specific needs of vulnerable population groups, including Aboriginal people and LGBTIQ groups (\$6 million).

## **Rural and regional health**

- The Regional Health Infrastructure Fund will allow for the upgrade of regional hospital facilities to meet the needs of their local communities (\$200 million).
- Additional ambulance services (emergency transports, non-emergency transports and treatments not requiring transport) for eligible concession card holders (\$64 million).
- Alcohol and drug residential rehabilitation services across the state will be expanded by developing an 18-20 bed residential alcohol and drug rehabilitation facility in the Grampians region servicing the Ballarat community (\$6 million).

## **Other initiatives**

- Fix ambulance services, giving paramedics the support and resources they need to save lives (\$143 million).
- Ensure access to medical cannabis, a life-changing treatment for those who are seriously ill in exceptional circumstances, through the establishment the establishment of the Office of Medicinal Cannabis and an independent Medical Advisory Committee (\$28.5 million).
- Continued prevention and early detection of perinatal depression to support new mothers experiencing depression (\$1.6 million).
- Improve ambulance response times, and build and upgrade facilities and equipment (\$5 million)
- Funding for new suicide prevention initiatives under the Victorian Government's 10-year Suicide Prevention Framework. The framework aims to halve the number of suicides over the next decade (\$27.5 million).
- Real time prescription monitoring system. Pharmacy prescription records for Schedule 8 and other dangerous medicines will be connected in real time to a centralised system, which will also be accessible to doctors (\$29.5 million).

# Part A: Strategic overview

## Mission statement

To competently care for our community with best practice health services.

To model best practice rural health care in Australia from a robust foundation primed for growth.

To embrace innovation in all aspects of our work.

## Service profile

Edenhope and District Memorial Hospital is a small rural health service providing acute, residential aged care, independent living options, primary health and community health services to the local region. Located over 400 kilometres from Melbourne in the far west of the Grampians region, the nearest regional health service is Wimmera Health Care Group, located approximately 100 kilometres from Edenhope.

Edenhope and District Memorial Hospital is a one-stop shop for health care in the surrounding community and provides a range of on-site services or hosts visiting services. Full details of services can be seen in the Services section of the Edenhope and District Memorial Hospital website. The Hospital aims to provide as many appropriate services in the community as possible to minimise the amount of travel that people need to undertake to stay healthy.

## Strategic planning

The Edenhope and District Memorial Hospital strategic plan for 2013–18 may be accessed at:

<http://edmh.org.au/general-info/strategic-plan>

## Strategic priorities

In 2016–17 Edenhope and District Memorial Hospital will contribute to the achievement of the Government’s commitments by:

Domain	Action	Deliverables
Quality and safety	Implement systems and processes to recognise and support person-centred end of life care in all settings, with a focus on providing support for people who choose to die at home.	Enlist support through the Centre for Palliative Care to develop policies and procedures for the implementation of care plans for people choosing to die at home.
	Advance care planning is included as a parameter in an assessment of outcomes including: mortality and morbidity review reports, patient experience and routine data collection.	Set targets and develop a reporting process for tracking the uptake and utilisation of advance care planning; and complete audits that will track the effectiveness of its implementation.
		Consult with patients and/or family members to evaluate their experience and ensure the care provided was consistent with their wishes and the directives.
	Progress implementation of a whole-of-hospital model for responding to family violence.	Utilise the Strengthening Hospital Response to Family Violence Toolkit to review policies and procedures in relation to responding to family violence to ensure Edenhope and District Memorial Hospital responds appropriately to incidents of family violence.
	Develop a regional leadership culture that fosters multidisciplinary and multi-organisational collaboration to promote learning and the provision of safe, quality care across rural and regional Victoria.	As a participating member of the Small Rural Research Team alliance, undertake a project to enhance collaboration and deliver improvement in quality of care across rural and regional Victoria through shared learning and resources.
	Use patient feedback, including the Victorian Healthcare Experience Survey to drive improved health outcomes and experiences through a strong focus on person and family centred care in the planning, delivery and evaluation of services, and the development of new models for putting patients first.	Implement biannual ‘consumer lunch’ consumer consultation sessions to complement feedback received from the Victorian Healthcare Experience Survey to drive improvement in quality of care and patient experience.
	Develop a whole of hospital approach to reduce the use of restrictive practices for patients, including seclusion and restraint.	Audit compliance against the organisational restraint policy across all areas of service delivery and implement any required revisions to the policy including staff education as required.
Access and timeliness	Identify opportunities and implement pathways to aid prevention and increase care outside hospital walls by optimising appropriate use of existing programs (i.e. the Health Independence Program or telemedicine).	Evaluate the current use of telehealth services across the organisation and develop an action plan to strengthen referral pathways and enhance client access to services to prevent the need for hospital admissions and enhance patient care.

Domain	Action	Deliverables
	Develop and implement a strategy to ensure the preparedness of the organisation for the National Disability and Insurance Scheme and Home and Community Care program transition and reform, with particular consideration to service access, service expectations, workforce and financial management.	Develop and participate in new and existing working groups focussing on managing the transition of the Victorian Home and Community Care program and the introduction of the National Disability Insurance Scheme. Evaluate services suitable for delivery by Edenhope and District Memorial Hospital.
Supporting healthy populations	Support shared population health and wellbeing planning at a local level - aligning with the Local Government Municipal Public Health and Wellbeing plan and working with other local agencies and Primary Health Networks.	Provide input into Local Government Municipal Health Public Health and Wellbeing Plan ensuring there is an emphasis on diversity to deliver an integrated and collaborative service model.
	Focus on primary prevention, including suicide prevention activities, and aim to impact on large numbers of people in the places where they spend their time adopting a place based, whole of population approach to tackle the multiple risk factors of poor health.	Implement and evaluate the Sustainable Farm Families Program as a model of care to address mental health and wellbeing issues.
		Continue to work with the Primary Health Network to strengthen primary mental health service delivery models and referral pathways.
	Develop and implement strategies that encourage cultural diversity such as partnering with culturally diverse communities, reflecting the diversity of your community in the organisational governance, and having culturally sensitive, safe and inclusive practices.	Collaborate with West Wimmera Shire to develop a shared diversity plan and develop cultural competency amongst staff through shared learning opportunities.
	Improve the health outcomes of Aboriginal and Torres Strait Islander people by establishing culturally safe practices which recognise and respect their cultural identities and safely meets their needs, expectations and rights.	In partnership with Goolum Goolum Aboriginal Co-operative, undertake a cultural audit of the health service to improve the organisation's cultural appropriateness for Aboriginal and Torres Strait Islander people.
	Drive improvements to Victoria's mental health system through focus and engagement in activity delivering on the 10 Year Plan for Mental Health and active input into consultations on the Design, Service and infrastructure Plan for Victoria's Clinical mental health system.	Increase service and consumer access to local and regional mental health services by streamlining and clarifying referral processes to primary mental health support services and clinical mental health services.
	Using the Government's Rainbow eQuality Guide, identify and adopt 'actions for inclusive practices' and be more responsive to the health and wellbeing of lesbian, gay, bisexual, transgender and intersex individuals and communities.	Review and implement policies utilising the 'Lesbian, gay, bisexual, transgender and intersex inclusive practice guide for health and community services'.

Domain	Action	Deliverables
Governance and leadership	<p>Demonstrate implementation of the Victorian Clinical Governance Policy Framework: Governance for the provision of safe, quality healthcare at each level of the organisation, with clearly documented and understood roles and responsibilities. Ensure effective integrated systems, processes and leadership are in place to support the provision of safe, quality, accountable and person centred healthcare. It is an expectation that health services implement to best meet their employees' and community's needs, and that clinical governance arrangements undergo frequent and formal review, evaluation and amendment to drive continuous improvement.</p>	<p>Review documentation to ensure the organisation's clinical governance framework aligns with the Victorian Clinical Governance Policy Framework and undertake any modifications that may arise as a result of current reviews.</p>
	<p>Contribute to the development and implementation of Local Region Action Plans under the series of statewide design, service and infrastructure plans being progressively released from 2016– 17. Development of Local Region Action Plans will require partnerships and active collaboration across regions to ensure plans meet both regional and local service needs, as articulated in the statewide design, service and infrastructure plans.</p>	<p>By June 2017, actively contribute to the development and implementation of Local Regional Action Plans and worked collaboratively to ensure the plan meets both regional and local service needs.</p>
	<p>Ensure that an anti-bullying and harassment policy exists and includes the identification of appropriate behaviour, internal and external support mechanisms for staff and a clear process for reporting, investigation, feedback, consequence and appeal and the policy specifies a regular review schedule.</p>	<p>Review existing policy to ensure it includes clear mechanisms for: reporting, investigation, feedback, consequence and appeal including a regular review schedule, the capacity to monitor incidence and adequate reporting processes.</p> <p>Ensure the policy has adequate visibility among staff and management to ensure accountability.</p>

Domain	Action	Deliverables
	<p>Board and senior management ensure that an organisational wide occupational health and safety risk management approach is in place which includes: (1) A focus on prevention and the strategies used to manage risks, including the regular review of these controls; (2) Strategies to improve reporting of occupational health and safety incidents, risks and controls, with a particular focus on prevention of occupational violence and bullying and harassment, throughout all levels of the organisation, including to the board; and (3) Mechanisms for consulting with, debriefing and communicating with all staff regarding outcomes of investigations and controls following occupational violence and bullying and harassment incidents.</p>	<p>Ensure the organisational risk register has a section pertaining to occupation violence and aggression which is reported to the Quality and Risk Committee.</p>
		<p>Implement training, utilising Management Of Clinical Aggression principals to assist staff de-escalate challenging behaviours and reduce adverse incidents.</p>
	<p>Implement and monitor workforce plans that: improve industrial relations; promote a learning culture; align with the Best Practice Clinical Learning Environment Framework; promote effective succession planning; increase employment opportunities for Aboriginal and Torres Strait Islander people; ensure the workforce is appropriately qualified and skilled; and support the delivery of high-quality and safe person centred care.</p>	<p>Develop and implement a workforce plan which aligns with our strategic plan, department priorities and local service profile.</p>
	<p>Create a workforce culture that: (1) includes staff in decision making; (2) promotes and supports open communication, raising concerns and respectful behaviour across all levels of the organisation; and (3) includes consumers and the community.</p>	<p>Ensure senior management are supported to better engage with the hospital and community at staff and consumer meetings.</p>
		<p>Provide opportunities for staff and consumers to be consulted on major projects such as capital development and refurbishment projects.</p>

Domain	Action	Deliverables
	<p>Ensure that the Victorian Child Safe Standards are embedded in everyday thinking and practice to better protect children from abuse, which includes the implementation of: strategies to embed an organisational culture of child safety; a child safe policy or statement of commitment to child safety; a code of conduct that establishes clear expectations for appropriate behaviour with children; screening, supervision, training and other human resources practices that reduce the risk of child abuse; processes for responding to and reporting suspected abuse of children; strategies to identify and reduce or remove the risk of abuse and strategies to promote the participation and empowerment of children.</p>	<p>Conduct an internal review of the Edenhope and District child safe policy to ensure it meets our obligations under the Victorian Child Safe Standards.</p> <p>Support the implementation of the revised policy through periodic, mandatory education for all staff.</p>
	<p>Implement policies and procedures to ensure patient facing staff have access to vaccination programs and are appropriately vaccinated and/or immunised to protect staff and prevent the transmission of infection to susceptible patients or people in their care.</p>	<p>Review the organisational vaccination policy to ensure it is clear, accessible and embedded within the organisation.</p> <p>Conduct education sessions aimed at increasing staff knowledge and awareness regarding the benefits of influenza immunisation.</p>
<p>Financial sustainability</p>	<p>Further enhance cash management strategies to improve cash sustainability and meet financial obligations as they are due.</p>	<p>Undertake an evaluation of the cash flow forecast and other board reports to identify opportunities to improve information provided to the Board. Provide feedback from the evaluation to the organisations external accountants to improve financial reporting to the Board.</p>
	<p>Actively contribute to the implementation of the Victorian Government's policy to be net zero carbon by 2050 and improve environmental sustainability by identifying and implementing projects, including workforce education, to reduce material environmental impacts with particular consideration of procurement and waste management, and publicly reporting environmental performance data, including measureable targets related to reduction of clinical, sharps and landfill waste, water and energy use and improved recycling.</p>	<p>Review current practices across the organisation and identify areas that demonstrate the greatest potential for carbon reduction.</p> <p>Work to increase staff engagement with the Victorian Government's policy to be net zero carbon by 2050 and implement staff education to reduce carbon in identified areas for improvement.</p>

## Part B: Performance priorities

The *Victorian health agency monitoring and intervention* describes the Department of Health and Human Services' approach to monitoring and assessing the performance of health agencies and detecting, actively responding and intervening in relation to performance concerns and risk. This document aligns with the measuring and monitoring element of the *Victorian health services performance framework*.

Changes to the key performance measures in 2016–17 strengthen the focus on quality and safety, in particular maternity and newborn, and access and timeliness in line with ministerial and departmental priorities.

Further information is available at <https://www2.health.vic.gov.au/hospitals-and-health-services/funding-performance-accountability>.

### Quality and safety

Key performance indicator	Target
<b>Accreditation</b>	
Compliance with NSQHS Standards accreditation	Full compliance
Compliance with the Commonwealth's Aged Care Accreditation Standards	Full compliance
<b>Infection prevention and control</b>	
Compliance with cleaning standards	Full compliance
Submission of infection surveillance data to VICNISS <sup>1</sup>	Full compliance
Compliance with the Hand Hygiene Australia program	80%
Percentage of healthcare workers immunised for influenza	75%
<b>Patient experience</b>	
Victorian Healthcare Experience Survey - data submission	Full compliance
Victorian Healthcare Experience Survey – patient experience	95% positive experience
Victorian Healthcare Experience Survey – discharge care	75% very positive response

### Governance and leadership

Key performance indicator	Target
People Matter Survey - percentage of staff with a positive response to safety culture questions	80%

<sup>1</sup> VICNISS is the Victorian Hospital Acquired Infection Surveillance System

## Financial sustainability

Key performance indicator	Target
Finance	
Operating result (\$m)	0.02
Trade creditors	60 days
Patient fee debtors	60 days
Adjusted current asset ratio	0.7
Number of days with available cash	14 days
Asset management	
Basic asset management plan	Full compliance

## Part C: Activity and funding

The performance and financial framework within which state government-funded organisations operate is described in 'Volume 2: Health operations 2016–17' of the Department of Health and Human Services' *Policy and funding guidelines*.

The *Policy and funding guidelines* are available at <https://www2.health.vic.gov.au/about/policy-and-funding-guidelines>.

Further information about the Department of Health and Human Services' approach to funding and price setting for specific clinical activities, and funding policy changes is also available at <https://www2.health.vic.gov.au/hospitals-and-health-services/funding-performance-accountability/pricing-funding-framework>.

<b>Funding type</b>	<b>Activity</b>	<b>Budget (\$'000)</b>
Small Rural		
Small Rural Acute		3,093
Small Rural Primary Health		63
Small Rural Residential Care	14,464	604
Small Rural HACC	2,067	34
Health Workforce	2	45
Other specified funding		127
<b>Total</b>		<b>3,966</b>

## Part D: Service Level Agreement for the purposes of the National Health Reform Agreement

The Victorian health system has faced a number of changes to Commonwealth funding since 2012–13. The changes to the funding arrangements announced in the 2014–15 Commonwealth Budget will continue to be applicable for the period 1 July 2016 to 30 June 2017 with funding continued to be linked to actual activity levels.

The Commonwealth funding contribution outlined in the 2016–17 Commonwealth Budget was based on estimates and has since been updated by the Administrator of the National Health Funding Pool, based on latest activity estimates from States and Territories. However, given that final funding amounts are based on actual activity, there may be adjustments to funding throughout the year as a result of reconciliations and other factors outlined below.

### Period: 1 July 2016–30 June 2017

	Estimated National Weighted Activity Units	Total Funding (\$)	Provisional Commonwealth Percentage (%)
Activity Based Funding		0	
Other Funding		4,001,065	
<b>Total</b>		4,001,065	

#### Note:

- Estimated National Weighted Activity Units may be amended by the Department of Health and Human Services following the finalisation of the 2015–16 reconciliation by the Administrator of the National Health Funding Pool
- Provisional Commonwealth Contribution Percentage is subject to change following state-wide adjustments (i.e. cross border patient flows), the 2015–16 reconciliation and Commonwealth announcements (i.e. Mid-Year Economic and Fiscal Outlook 2016–17)
- Activity loadings are included in the Estimated National Weighted Activity Units (i.e. Paediatric, Indigenous, Remoteness, Intensive Care Unit, Private Patient Service Adjustment, and Private Patient Accommodation Adjustment)
- In situations where a change is required to the Part D, changes to the agreement will be actioned through an exchange of letters between the Department of Health and Human Services and the Health Service Chief Executive Officer.

Ambulance Victoria and Dental Health Services Victoria do not receive a Commonwealth funding contribution under the National Health Reform Agreement. Dental Health Services Victoria receives Commonwealth funding through the National Partnership Agreement.

## Accountability and funding requirements

The health service must comply with:

- All laws applicable to it;
- The National Health Reform Agreement;
- All applicable requirements, policies, terms or conditions of funding specified or referred to in the *Victorian health policy and funding guidelines 2016–17*;
- Policies and procedures and appropriate internal controls to ensure accurate and timely submission of data to the Department of Health and Human Services;
- All applicable policies and guidelines issued by the Department of Health and Human Services from time to time and notified to the health service;
- Where applicable, all terms and conditions specified in an agreement between the health service and the Department of Health and Human Services relating to the provision of health services which is in force at any time during the 2016–17 financial year; and
- Relevant standards for particular programs which have been adopted e.g. International Organisation for Standardisation standards and AS/NZS 4801:2001, Occupational Health and Safety Management Systems or an equivalent standard.

## Signature

The Secretary and the health service board chairperson agree that funding will be provided to the health service to enable the health service to meet its service obligations and performance requirements as outlined in this Statement of Priorities.
